

AROUND the TOWNSHIP

Tommy Larkin is back. The noted Niles shoeshine entrepreneur of yesteryear is establishing a new stand in Niles after spending four years—four long years—in Southern California. Tommy, confidant of the great and near-great, couldn't stand his relative insignificance in the great southern metropolis, so he returned to a place where he could be somebody. He couldn't forget the fragrance, the flowers, the fruits of Washington Township. While he was established here before, Tommy was advertised up and down the state. The good, old times are returning to Niles, says Larkins. He has looked around and he knows the signs.

Mrs. C. H. Franklin's friends are joking her these days about her panic the last week when she was locked in the Niles school house. Mrs. Franklin, as head of the Niles P. T. A. was active in arrangements for the party for the eighth grade. Mrs. Franklin went to the school basement for a final checkup as the party was breaking up. When she returned, she found everyone had gone off and left her and all doors locked. She wandered around in the day for some time, trying to attract the attention of neighbors before she managed to pry open a door.

Louis Ruschin, in going through his things the other day, found an old dog-racing card which he stuck up on the wall of his shop. It carried a list of entries in a dog race held at the old track in Newark in 1890. "Those were great times," Ruschin recalls. Special excursion trains came out from San Francisco with hundreds of people bound for the Newark dog races. The old track was right near the Graham stove works. Real rabbits were used to make the dogs run.

Ruschin has been with Newark through all its ups and downs. When anyone in Newark wants any advice about anything he goes to Ruschin. He's always certain to get some straight talk and a sympathetic ear.

Veterans in Washington Township have a good word to say for H. V. Fournier for the prompt way in which he distributed bonus certificates. Fournier organized his own filing system which enabled the veterans to receive their certificates in rapid fire order.

Tom Statia of Niles has seen more of the United States than most native born residents. Statia learned the tailor's trade in his native Greece when he was a lad. He did not care to follow the footsteps of his father, a carpenter, or his uncle, a butcher. When he came to America, he worked for a time in a Fifth Avenue shop in New York but couldn't get along with his boss, a Frenchman. Since then, he has been working for himself. He has traveled all over this country, between trips back to Greece and he hopes to return to Greece again some time.

BIRTHDAY PARTY IS TENDERED MRS. LOUIS DI GIULIO

NILES — Mrs. Louis Di Giulio was the honored guest at a formal birthday party given at her home Saturday evening. The home was beautifully decorated in red and white. Ferns and roses completed the garden effect. The evening was spent in dancing and an amateur contest.

Prizes were won by Edward Leal Jr., Reno Quartaroli, Caesar Di Giulio and Albina Devincenzi. The guests were greatly amused when Guido Tuana imitated Mae West. A buffet luncheon was served at midnight.

Those present included Mr. and Mrs. James L. DeMatel, Mr. and Mrs. Aldo Ricci, Miss Angie Del Carlo of San Francisco, Miss Albina and Guido Devincenzi of San Leandro, Mrs. E. Di Giulio and son Caesar, Mrs. Edward Leal and sons Edward, Robert and Donald, Mr. N. Quartaroli and family, the Misses Enis and Susie Del Grande, Filma Porgetto, Guido Tuana, Elmer Andrade and Mr. and Mrs. Louis Di Giulio of Niles.

DECOTO VOTES BIG "YES" FOR SANITATION BONDS

FIREWORKS SALE BANNED

NILES — Sheriff's officers this week warned Township merchants against purchasing fireworks other than caps and cap pistols for sale to the public.

Numerous high pressure wholesale salesmen have been going through the county trying to sell unlawful fireworks for resale to celebrators on July 4, the officials said.

They pointed out that they expect to enforce the 1924 ordinance against sale of such fireworks. Violation means confiscation of the illegal goods and possible maximum fine of \$500 or a jail sentence of six months or both.

Miss Sevilla Hayden Shuey Bride In Brilliant Ceremony

OAKLAND — A social event that attracted wide attention was the wedding last week of Miss Sevilla Hayden Shuey, daughter of Mr. and Mrs. Clarence Arthur Shuey of Alvarado Road, Berkeley, and Mr. Allen Mayhew Shinn, lieutenant (junior grade), United States navy.

The marriage was solemnized at Saint Paul's Episcopal church, the ritual being read by Rev. A. Ronald Merrix, rector of St. Paul's, assisted by Rev. J. Henry Thomas, rector of St. Clement's Episcopal church in Berkeley.

The ceremony had all the brilliance of a full navy service. The bridegroom's brother officers were the ushers and the recessional was under their crossed swords.

Decorated all in white for the service, St. Paul's presented a beautiful picture. The bridal party

walked to the altar down the aisle lighted by cathedral candles placed in tall candelabra at the pews. Lillium regale, white iris and lilies composed the floral decorations with streamers of white ribbons.

The bride was given in marriage by her father.

Miss Elizabeth Shinn, sister of the bridegroom, was the maid of honor, and the eight bridesmaids were Miss Anne Eschen, Miss Virginia Guerin of Alameda; Miss Virginia Phelps, Miss Jean Kergan, Miss Anna Millicent Shinn, Miss Elizabeth Goodfellow, Miss Diane Pickering and Miss Jean Floyd.

Mr. Reese Wolf was best man for the bridegroom, who is a son of Mr. and Mrs. Joseph Clark Shinn of Niles.

The bridal pair are now enroute to Florida where the naval officer will be stationed for the next year.

The contractors will construct five new undergrade crossings and a reinforced concrete girder bridge, widen an existing subway, construct and surface a graded roadbed 56 feet wide on the Oakland-San Jose highway and 36 feet wide on the Walnut Creek-Niles road—all in a distance of 2.9 miles, near Niles.

Work will start in the near future and will take about a year to complete. Total cost will be around \$1,000,000, including expenditures by the Southern Pacific and Western Pacific for the underpasses, and the payments made by the state for rights of way. Part of the cost is to be paid by the federal government.

BONUS BONDS FOR NILES VETERANS PLACED QUICKLY

NILES — Thirteen thousand, eight hundred and fifty dollars in soldiers' bonus bonds were cashed in and around Niles in two days, reports H. V. Fournier, postmaster.

Decoto Home Burns

DECOTO — Forty-five seconds was the time required by the Decoto fire department to get on the job last week when the Ernest Ramos home at Sixth and E streets was burned. Fast as they were, the firemen were unable to save the frame structure which burned to the ground. Ramos and his family were away at the time. The firemen prevented the blaze from spreading to nearby buildings, however.

NILES CHAMBER FLOAT

At Monday's meeting the Niles Chamber of Commerce voted to go ahead with decoration of a float to be entered in the parade. C. W. Kraft, president of the Kraftite company, tendered the use of a truck and the services of a driver, and his offer was accepted.

Smart Silks for Spectator Sports

By CHERIE NICHOLAS

IF THERE is one place more than another that daytime fashions show off in a panorama of surprising style interest, it is at the races. The influence of the French races and Ascot was very evident at the openings of our own American tracks this season. Although there were no trailing skirts there were the reminiscent cartwheels, the tiny elaborate "doll" hats which smart Parisiennes love so well with flower, vegetable and bird trimming—millinery fantasies such as are almost amusing in their eccentricities, yet quite worthwhile in that they are adding such zest to the current mode. Silk taffeta frocks and suits were numerous and set the pace for an interesting style movement. Skirts 14 inches from the ground, any number of short-sleeved dresses and jackets.

Typical of the choices of many well-dressed women was the very short black silk crepe suit with a fitted jacket that is worn with an enormous black feather-trimmed cartwheel hat. A huge white kid water lily at the shoulder gave a dramatic touch. Much is being said in fashion circles in regard to water lily colorings and water lily boutonnières and corsages. As to suits of this type the fashion parade includes them in dark silk failles, in faconne silk taffeta, and of course, the gay printed suits are that ubiquitous they are taken for granted.

As to the newer silk prints there is a marked tendency to select tiny neat patterns for daytime wear. Made up in trimly tailored frocks with short sleeves and matching jackets, you have the costume-ideal for going about town and for the

practical hours of general activities. Now that summer is nearing the trend toward cool silks, both plain and print are obvious. To glorify these intriguing prints one must be accessory-minded to a high degree, which is not at all difficult since the shops are filled to overflowing with the most fascinating neckwear, gloves, bouquets, belts, footwear and handbags that genius might devise.

Some of the smartest women are endorsing tunics over slim skirt foundations. See the tunic model to the left in the picture. Schiaparelli's new gingham silk taffeta is the fabric chosen for this tunic. It is worn with a red leather belt over a black silk crepe skirt.

Seen at the Belmont race track was the jacket dress centered in the illustration. It is styled of dotted silk crepe, white on gray (a very important color is gray this season). Fitted jacket, square shoulders with big sleeves, and a ruffled jabot on the dress are details that interpret high swank.

The contrast jacket is a pet project with fashion these days. Note to the right in the illustration the stunning model. Here a black sheer silk dress is topped by a short swag-jacket of white silk crash embellized with gold dots in jockey colors—maroon and blue. The hat is of white silk crash with extreme eye-shading brim which is inspired by a jockey's cap.

CIRCULAR LINES FOR NEXT AUTUMN

While most women are concentrating now on the purchase of their summer wardrobes those who are designers of fashionable clothes are concerned about next fall and winter's styles. They are considering the creations shown in recent Paris collections and thinking up ideas to produce something new in the way of silhouettes for the autumn.

The first inkling of the trend which has leaked out of the work-rooms concerns the width of hemlines. Circular lines are said to be so well liked that every one of us will be wearing skirts that whirl around us like ballet costumes before many months have gone.

Feminine Allure Feature of Negligees for Summer

Negligees good for all year, and especially charming for summer, are made of blush satin, with deep insets of Ivory Alencon lace. The body of these negligees is cut on the bias, so that it drapes around the figure attractively. A rolled hem finishes the edge. The sash ends have lace trimming.

Another type of negligee has two bias ruffles for a shawl collar, and three bias sleeve ruffles arranged in tiers, all edged with Val lace. Very practical for summer, especially when the fabric is dotted swiss or washable silk.

Barnyard in Prints

The barnyard is glorified in silk sheer animal prints of white roosters, birds and bunnies instead of traditional dots on black. One smart model features a vest and three pleated tiers of a twin print on a red ground.

Sports Garb Colors Gay

Summer sports clothes stress colorful hues and comfort. Molyneux has evolved evening pajamas of light green linen topped by a jacket of the same fabric lined with multi-colored printed crepe.

WHITE LINEN SUIT By CHERIE NICHOLAS

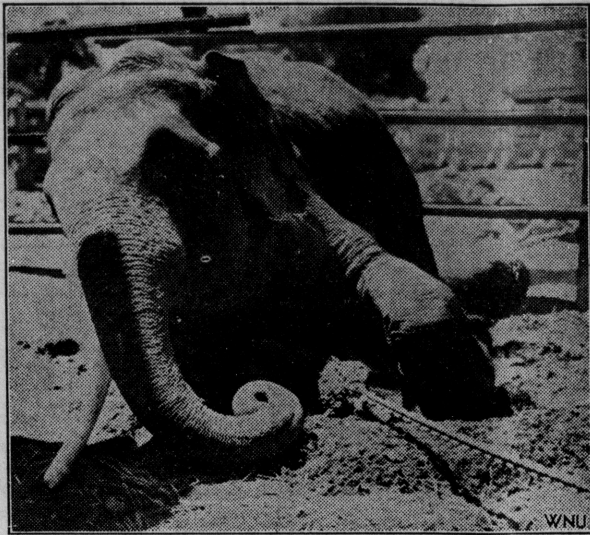

The linen suit in natural or pure white is an important number on the style program for summer. The accent on suits has been most pronounced all spring and now enthusiasm for suits is continuing for summer—suits of linen particularly that are cool and comfortable as temperature rises. The classic white suit here pictured is of linen of superlative grade imported from Moygashel, Ireland. It is particularly smart for town wear when accompanied with dark accessories such as fashion decrees with white. Note the navy beret, the navy-striped silk shirt, the navy gloves and bag. These identical accessories carried out in Dubonnet red are stunning.

A Fox Bracelet

Fur bracelets are next. Fox takes the lead and either bands the elbow or encircles the lower arm just above the wrist.

'WALLY' DIES BEFORE FIRING SQUAD

Legal machinery failed to save Wally, the San Francisco zoo rogue elephant who killed his keeper, from a firing squad although it did give him a 24-hour respite from death. A superior court judge recalled a restraining order which reprieved the six-ton pachyderm, and Wally fell when bullets from three high power rifles penetrated his tiny brain. Here's Wally going down after he was shot.

BIT OF ALASKA AT LAKE TAHOE

One of the points of interest for visitors to California's newest State park are these totem poles on the shores of Lake Tahoe in Rubicon State Park, just opened to campers. Situated on Emerald Bay, the park comprises 1400 acres of land with three miles of shoreline. The totem poles were donated to the State division of parks by a movie company, which used them in the filming of "Rose Marie."

Household Questions

Wash out chamois skins on a windy day. Hang up to dry on the clothesline and the wind will blow the skins so they will be very soft when dry.

Mushrooms added to brown gravy served with a roast give it a delicious flavor.

Coral beads may be cleaned by dissolving a teaspoonful of borax in a pint of warm water. Dip the coral, and when clean, put through tepid water.

Try this method of watering hybrid tea roses all during the summer. With a can opener remove both ends from a tin can, then sink can, one open end down, into the ground. Turn hose into cans and occasionally liquid manure.

A strong solution of borax and water boiled in the coffee pot occasionally will keep it sweet.

When mulching perennials avoid using too heavy a mulch. The purpose of the mulch is to keep the plants cool, not warm.

Dry the outside of ice trays after filling with water and before putting back into a mechanical refrigerator. If this is done trays will not stick and may be easily removed.

The color of spinach will be preserved if a pinch of soda is added to the water in which it is boiled.

Those little tile tables which are such a help in summer entertaining are now so reasonably priced that you can easily indulge in two or more. Those made of tiles are especially nice.

Niles Visitor Tells About Chocolate Roll

Mrs. Pauline Hughes, mother of Mrs. Wesley Dexter Gordon, who is visiting at the Gordon home this week, came to the rescue of the Register home economics department the other day with her recipe for chocolate roll. The ingredients are few but the method is not so simple.

INGREDIENTS

5 eggs.
5 tablespoons sugar.
5 tablespoons ground, un-sweetened chocolate.
Separate eggs. Beat whites stiff. Beat yolks till creamy. Mix sugar and chocolate together and beat into yolks. Fold into whites. Line 8 by 12 inch pan with oil paper, pour in mixture and bake in slow oven for 30 minutes. Take out of pan and roll up in towel or oiled paper. Let cool and then un-roll and put in frosting and re-roll again.

A creamy chocolate is made with a cup of powdered sugar, two table-spoons of chocolate and a table-

spoon of butter creamed together with milk to suit.

After the frosting has been placed inside the roll and the roll rolled up again, it may be dusted with powdered sugar and served with whipped cream.

MORE RECIPES

Butter Cookies

½ pound butter.
½ pound sugar.
½ pound flour.
2 eggs.
Drop a scant teaspoonful of the cookie dough on a buttered tin.

Swedish Meat Balls

½ pound ground round steak.
1 slice bread (1 inch thick).
1 cup milk.
½ teaspoon salt.
1 teaspoon minced onion.
1 egg yolk or 1 tablespoon of the whole egg.

4 onions, sliced.
½ cup cream or top milk.

Crumble bread into milk. Let it stand until the bread has become thoroughly soaked with milk. Add meat, salt, egg, and minced onion, and mix thoroughly. Heat fat in a frying pan and fry the sliced onions in it until they are tender. Remove the onions with a skimmer to a pan lined with paper, and keep them warm. Form the meat mixture into balls, the size of a walnut. Drop the balls into the onion flavored fat in the frying pan. Sauté them every little while so they will brown evenly. When the meat balls are browned, add enough hot water to almost cover them. Let them simmer for thirty minutes. Remove the balls to the platter. Add the cream to the liquid, stir in a mixture of flour and water, allowing one and one-half tablespoons of flour to each cup of liquid. Stir until the mixture boils. Season to taste.

Pour the sauce over the meat balls and garnish with the fried onions.

Tomato Aspic

1 can tomatoes.
1½ envelopes Knox gelatine.

Cream butter and sugar: Dissolve soda in water. Add salt and flour. Add the chopped almonds last. Mold the cookie mixture into a roll. Put in the refrigerator and let it stand for several hours. Cut in thin slices and bake slowly.

Pound Cake

½ cup butter.
1 cup sugar.
2 egg yolks.
¾ cup milk.
About 1½ cups flour.
2 slightly rounding teaspoons baking powder.

Bank of America Plans Credit Expansion to Fulfill Local Needs

CENTERVILLE — F. T. Dusterberry, manager of the Centerville branch of the Bank of America, has just returned from San Francisco where he conferred with L. M. Giannini, president, and other executives, on the loan policy of the bank.

"Bank of America is making a concerted effort to fulfill the credit needs of the state," he said. "Our executives are aware of the loan needs of every community, and it is our purpose to meet those needs with sound credit expansion."

"It is our plan to continue aggressively in the fields of lending money for buying and building homes, in the personal loan field, in financing the purchase of automobiles, in lending on warehouse receipts, and performing all credit functions for the benefit of the territory we serve."

"We feel that a sound credit policy, designed to aid in the advancement of this community and its residents, is the most effective public service that our bank can render."

Sprinkle with cheese and a little red pepper and a few raisins. Then roll up and tie.

Heat olive oil in a pan, fry meat until brown. Cut up about two small onions, fine, one small clove of garlic. Add one can Italian tomatoes, salt, and a few leaves of parsley.
Cook on a slow fire.

MACMARR STORES HIGH WAGE RATES TO BE CONTINUED

OAKLAND—The minimum wage standard maintained in California MacMarr Stores, will definitely remain a part of the company's future policy toward its employees. This statement was issued by Carl Deinsenroth, district supervisor, in light of the recent decision by the United States supreme court holding a minimum wage law for women in New York as unconstitutional.

MacMarr Stores, which employs hundreds of women in its California stores, hastened to assure all its workers that the company itself would voluntarily maintain its own minimum wage levels and continue to support its policy of "fair wages to all."

In a recent wage analysis made by the United States bureau of census it was also shown that employees of chain food stores in California are among the highest paid in the industry.

VETERANS-- Save Some of It

It is hard to resist the temptation to "cut loose" when a considerable sum of money comes suddenly to hand.

But to resist is the more prudent way . . . and pays most in the long run.

No sensible person . . . no one possessing common kindness and tolerance . . . would urge you to forego the purchase of a few luxuries or to miss the thrill of a little interlude of showing yourself a good time. We urge no such Spartan resistance to a natural impulse.

But we do urge you to refrain from sending it all.

A fair portion of your money . . . some of the bonds with which you are paid . . . if put safely away, will provide a competence of great value to you and yours in later years.

AGAIN ROOSEVELT AND GARNER

As this is written the Democratic national convention is stalling along, trying to find work to do. The program is being set for renomination of Roosevelt and Garner and the rubber stamping of the Roosevelt written platform. Unparalleled in history is the complete domination of a major political party in the United States by one man. He has a rubber-stamping congress, a rubber-stamping convention. The platform is his, every appointment in the government depends on personal allegiance to the chief—the party and the government ARE Roosevelt.

A few short years ago the notion that we could have in the United States such complete dictatorship would have been incredible. Surely the situation is a tribute to the remarkable personality of the man, if not to the thinking processes of his supporters.

So again, Roosevelt and Garner are to be the so-called Democratic nominees; although many erstwhile leaders in the party have read themselves out, have "taken a walk." Whether Roosevelt shall be re-elected depends on many things that may happen between now and November. The people's money is being distributed with lavish hand in places where it is calculated to win the most votes for Roosevelt. The present attempt to buy farmers' votes by payment of acreage fees for planting cover crops—which most farmers plant in any event—is perhaps the baldest scheme yet.

The third party movement may be expected to take more votes from Roosevelt than from Landon, since the third party represents the permanent dissidents, the advocates of unsound theories of many stripes.

Roosevelt's hold on his party is yet supreme; whether his hold on the nation is relaxing, the fact will become more manifest two or three months hence.

JOHN HAYS HAMMOND

John Hays Hammond, most eminent of mining engineers—with possible exception of Herbert Hoover—is dead, aged 81.

Friend of the colossal Cecil Rhodes, Hammond had a part with Rhodes in adding vast South African domains to the British empire. He introduced deep level mining in the Rand gold fields, made vast fortunes for Rhodes and associates, including himself. Hammond was active in the Jameson raid preceding the Boer war, was caught by the Boers and sentenced to death. Later they let him go on payment of a fine of \$125,000.

In England Hammond moved in the highest circles. Returning to America he became the trusted friend and adviser of President Taft. Hammond's interest in California mining continued from the beginning of his career to the end. Last year he brought out his autobiography—a thrilling account of a thrilling life. His activities spanned almost two generations and his interest in men and affairs continued to the end.

THE "BOMBER" TAKES THE COUNT

Last Thursday night when rain caused the Joe Louis-Max Schmeling fight to be postponed, smart sport writers said Max had gotten a reprieve. The betting was ten to one the colored gentleman would win. Next night the German—despite the supposed decrepitude of his thirty years—smashed Louis down with such an amazing battery of rights that the astonishment of the crowd was echoed in the voice of the radio announcer.

The experts are not always right. They picked Baer to slaughter Braddock, a supposed second rater, and made the betting odds ten to one. But Braddock took the crown from Baer. Baer had knocked out Schmeling and Louis paralyzed Baer a few months after Baer had succumbed to Braddock. Now Braddock and Schmeling are to meet next September. Figure that one out. We string along with Braddock. He is a great boxer.

Louis said he didn't "know nothin'" during the rest of the fight after he had been flattened by a right to the jaw in the fourth. Again you hear the colored race "can't take it," unless winning.

Listening to the broadcast it certainly sounded like Louis was far short of living up to the reputation of killer given him so lavishly by the sport writers.

No, the experts are not always right. In the recurring heavyweight matches you can expect to be surprised.

Townsend Club

MISSION SAN JOSE—(To the Editor) —"Let's re-dedicate ourselves to America, and to a government for the people, of the people and by the people."

That was the resolve today of Townsends everywhere on the eve of their second annual nationwide Townsend picnic, on the Fourth of July. The sentiment was particularly strong in California where Townsends from throughout the state plan to gather in Durant Park, Oakland.

"More than 100 Townsend clubs from Alameda and Contra Costa counties are making special preparations for the annual event," said Edw. J. Margett, California State manager of the Townsend O. A. R. P. in announcing the picnic. "Advance reservations indicate that more than 100,000 Townsends will be present."

Margett said that two or more such picnics are planned by Townsends of every state in the Union.

The biggest Townsend mass meeting ever held in Northern California is planned for next Sun-

day at the Oakland Civic Auditorium where the inside story of the recent congressional investigation will be revealed.

The meeting, at which Congressman John H. Tolan of Oakland will expose the methods of the investigation committee, will open at 2:00 o'clock, according to an announcement yesterday of Edw. J. Margett, state manager of the Townsend O. A. R. P.

VERA WITHERLY, Secretary.

FRIENDS HONOR MISS PETERSON

City Life

As Seen From Washington Township

One of the aspects of city life that tickles us half to death is the classified advertising in the big newspapers. Here is the sort of thing you find when you look:

"TUE. Sagittarius; Fri. Capricorn. 2 and 8 p. m. 450 Geary, rm. 206."

This cryptic message appears in the Lectures and Meetings classification of the Examiner. Presumably the only persons interested in the ad would be astrologers and we suppose they are sufficiently in touch with zodiacal doings not to need a fuller statement.

Here's another, under "Inquiries for Missing People":

"Wanted—names, heirs, friends, Joseph Rosse, born France about 1848. Occupation cook. Reply P. O. Box 147, Chicago."

Why a Chicagoan would advertise in a San Francisco paper for the heirs of a dead French cook offers a tantalizing speculation to anyone as nosy as we are about other people's affairs. What would a cook leave that would interest his missing heirs? Maybe some priceless recipe.

Here's still another:

"Will man that helped lady who fell on Scott street near Grove Saturday, June 6, write box 28940 Examiner."

Chances are, if the man sees the ad and the lady is beautiful, he'll seize the opportunity to pursue the acquaintance further. If the lady is homely, he'll probably figure she wants him for a witness in a damage suit and he'll stay away—if he does not need the witness fee.

Big city newspapers realize the reader value of the classified ads. Hearst papers specialize in "Agony column" personals because of their human interest.

Perhaps the most interesting classified ads of the "agony" sort appear in the Saturday Review of Literature published in New York. Such as the following:

"ADVENTURE SEEKING and uninhibited young man, now in Massachusetts, well read, supposedly adaptable and resourceful, hopes to write, fond of unconventional travel, speaks excellent Eng-

lish and bad French, wants congenial employer."

The guy sounds like a parasite to us.

Then there's an ad that has been appearing in numerous classified columns around the country:

"Don't snore—small gold device. Prevents snoring, mouth breathing. One dollar. Satisfaction guaranteed."

We regard that ad with suspicion. The advertiser is probably telling the truth about the size of the device, if it is really gold and costs only one dollar.

But "satisfaction guaranteed."

To whom, we'd like to know. To the snorer or his audience?

One of the things about San Francisco which delight the inlander is the variety of restaurants that have brought the cooking and serving of sea foods to an artful perfection. Here may be had the splendid crabs of the cold northern waters, served a la Louis, or minced and baked in the shell, or simply "cracked" and served with mayonnaise. Or little neck clams, Bordelaise, with plenty of garlic in the nectar. (Mussels are less popular now). Or the little oysters from Olympia or Shoalwater bay, eaten raw with a fresh lime to squeeze, or in cocktails. The small oysters have a flavor delightful and evanescent that appeals to the true gourmet. Of the fish, what can equal boned silver smelt, pan fried; or Rex sole, ménéulle? Shad roe and bacon are early spring favorites. The restaurants are many, the number and variety of their viands endless. In hot climates a hundred or more miles from the sea, while the fish are kept on ice until ready to cook, something of their flavor is wanting. And chefs lack the experience of countless daily repetition. So the inlander coming from 100 degrees in the shade heads directly for the sea food emporia.

Another thing the inlander likes on a hot day is the cooling fog. Three or four o'clock on an afternoon through the summer months finds the fog blowing in through the Golden Gate. The hotter the weather in the interior, the more certain the appearance of the fog. Some times the wind is strong enough to carry the cooling breath over Washington township. The wind is liked less, but the fog is welcome. That is why business men of Sacramento or Stockton or Bakersfield or Red Bluff can find excuse for a trip to San Francisco on days when the mercury threatens to climb right out of the glass.

Good Lighting IS GOOD POLICY!

Better Light for Better Sight

IT IS good policy to check up on your lighting at least once a month. Replace lamp bulbs that have grown dim. Fill up the empty sockets and replace the small sized bulbs in floor and table lamps before headaches and eyestrain develop.

It is good policy, too, to see that the light on your porch or basement stairs is really good light. Most dangerous falls on stairs are caused by a misstep due to shadows and poor light. In the kitchen many cuts and burns might be avoided if just a little better light was by the kitchen sink or stove.

Good floor and table lamps today are inexpensively priced. Prices of lamp bulbs in sight-saving sizes are lower than ever and the reduced electric rates make better lighting a truly low cost monthly item. Check over the lighting in your home today.

Real Frost

"The winter up in Gulch Pass was the coldest of them all," said the prospector. "The thermometer frequently registered 50 degrees below zero."

"That really was nothing," said the salesman. "Up in the north country where I was making a call one winter, it was so cold in one of the hotels that the bellboys kept their hands in their pockets even after making a call."

Well—Which Is It?

The film magnate was describing his latest picture.

"My boy," he said, "it's tremendous! It's magnificent! It's masterful! It's mediocre!"—Tit-Bits Magazine.

"A statesman is supposed to be familiar with all public questions."

"Yes," replied Senator Sorghum, "but not necessarily with all the answers."

AND PRETTY SOON HEARS THE JANGLE OF THE MILK-MAN'S BOTTLES

Late King George Had an Excellent Set of Rules

Teach me to be obedient to the rules of the game.

Teach me to distinguish between sentiment and sentimentality, admiring the one and despising the other.

Teach me neither to proffer nor to receive cheap praise.

If I am called upon to suffer, let me be like a well-bred beast that goes away to suffer in silence.

Teach me to win, if I may; if I may not, teach me to be a good loser.

Teach me neither to cry for the moon nor to cry over split milk.—King George of England.

It is convenient to everything yet sufficiently remote from the roar of the city to insure almost country quietness.

Blemishes Made Her Old Looking

Face Clear Again with Cuticura Soap and Ointment

Here is a letter every skin sufferer should read. Its message is vital. "There were blemishes on my face, of external origin, and they made me look old and haggard. They were red, hard and large. They would hurt, and when I scratched them the skin would become irritated, and I would lie awake at night and start digging at my face.

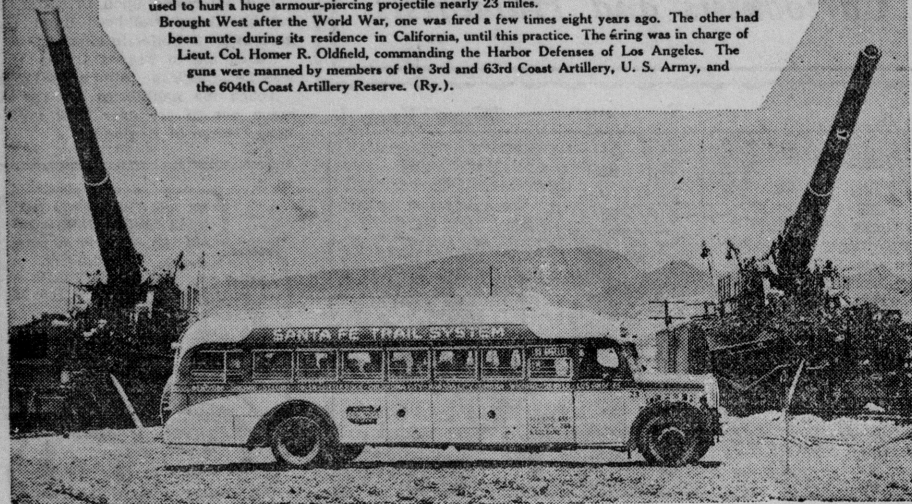

"But after using two cakes of Cuticura Soap and one tin of Cuticura Ointment my face was cleared again." (Signed) Mrs. L. Whetzel, 2nd St. Florence, Pa., June 15, 1935.

Physicians can understand such letters. The Cuticura formulas have proved their effectiveness for over half a century. Remember, Cuticura Soap and Ointment are also for pimples, rashes, ringworm, burning of eczema and other externally caused skin blemishes. All druggists. Soap 25c. Ointment 25c.—Adv.

Mere Twins Noisier Than Quints

Twin giants—two of the Army's 14-inch Coast defense guns—set up for target practice north of Oceanside. Each gun weighs 365 tons, or 40 times as much as the bus in the foreground. Aside from their two mates in Panama, these mammoth guardians of the California Coast line are the only modern, long range, heavy railroad guns in the United States. One-quarter ton of powder was used to hurl a huge armor-piercing projectile nearly 23 miles.

Brought West after the World War, one was fired a few times eight years ago. The other had been mute during its residence in California, until this practice. The firing was in charge of Lieut. Col. Homer R. Oldfield, commanding the Harbor Defenses of Los Angeles. The guns were manned by members of the 3rd and 63rd Coast Artillery, U. S. Army, and the 604th Coast Artillery Reserve. (Ry.).

IRVINGTON NEWARK PLAYOFF IN SIGHT

NILES — Unless Niles protests against Irvington's victory at the last game of the second half of the Southern Alameda county league series and unless the protest carries, Irvington and Newark will play off for the championship in a three game series, league officials announced early this week.

Last Sunday's game, for the second half leadership, was typical of the games recently. Sloppy playing and bad feeling were paramount.

League members have accused Irvington of using professional ball players in violation of the league rules and Irvington has stoutly claimed innocence.

Niles position as the protesting team is weakened by the fact that many of the Niles players are San Leandro men who have taken no interest in the playing recently.

WARNER BAXTER AT NILES THEATER

Admirers of Warner Baxter will have an opportunity to see him at his best when he appears next Sunday and Monday at the Niles theater in "Robin Hood of El Dorado." Ann Loring and Bruce Cabot are in the cast.

For next Saturday Manager Helm offers James Oliver Curwood's "The Country Beyond," with Rochelle Hudson; also John Mills in "Born for Glory." Saturday and Wednesday are cash nights.

Tonight will be the last chance to see fascinating little Shirley Temple in "Captain January," a film that has met wide approval.

LEGION AUXILIARY TO ELECT

Nominees include Mrs. Marie Brazil for president, Mrs. Marie Duarte for first vice president, Mrs. Angie Furtado for second vice president, Mrs. Theresa Swartz for chaplain, Mrs. Rose Vieux for secretary and Mrs. Nell Myers for historian.

BABY LARA DIES SUDDENLY

NILES—Cecelia Lara, 4 month old daughter of Mr. and Mrs. Pete Lara, succumbed suddenly June 19 at her home. Post mortem examination by Dr. E. C. Grau showed lobar pneumonia as the cause of death. Funeral arrangements are under the direction of Botelho's Chapel of the Palms.

IDEAL "AMERICAN MOTHER" VISITS HOMELESS AT BOYS TOWN

There were soul-stirring scenes the other day at Boys Town, Nebr., when the "Ideal American Mother of 1936," visited the 200 homeless boys at Father Flanagan's Boys' Home. Visibly affected by the sight of the 200 homeless boys as they sat before her in the Home auditorium Mrs. James Richard Smith of Claremont, Calif., the typical American mother, dabbed tears from her eyes as she began to speak.

Selected by the Golden Rule Foundation of New York for the honorary title of American Mother, Mrs. Smith made a special stop to visit Boys Town where more than 3,000 homeless and abandoned boys have been rehabilitated and sent out into the world by Father Flanagan.

Standing before the homeless boys, representing all creeds and many nationalities, Mrs. Smith spoke words of encouragement to them and words of praise for Father Flanagan. As she entered the auditorium the Boys Town

band burst into music. Then she listened with moistened eyes to when the "Ideal American Mother of 1936," visited the 200 homeless boys at Father Flanagan's Boys' Home. Visibly affected by the sight of the 200 homeless boys as they sat before her in the Home auditorium Mrs. James Richard Smith of Claremont, Calif., the typical American mother, dabbed tears from her eyes as she began to speak.

Before leaving Boys Town Mrs. Smith gave the following signed statement to Father Flanagan:

"TO THE PEOPLE OF AMERICA:

"Boys Town, Nebraska is an American asset. I am visiting here today for the first time but it will not be the last time. Boys Town, with Father Flanagan as its mentor, is a village of homeless boys. It is complete and modern and progressive. Here boys who otherwise would not have a chance in the world are trained mentally, spiritually and physically and equipped to become worthwhile citizens of tomorrow."

Let me say in all sincerity that Father Flanagan deserves the thanks of a nation."

Boys Town is supported solely by the public.
